

M. Raihan Rafiiful Allaam

Mid-Level UI/UX Designer

 [alamehan.github.io](https://github.com/alamehan)  raihanram@gmail.com  [0857-7971-8640](tel:0857-7971-8640)  [Cibadak, Sukabumi](#)

With over 3 years of experience in UI/UX design, I specialize in creating intuitive user interfaces, from research to prototyping. I have successfully delivered over 10 design projects, including responsive websites, mobile apps, and design systems, all aimed at enhancing user experience and development efficiency. Currently, I am working on UI/UX design for a SaaS (Software as a Service) product.

Work Experiences

PT ELABRAM SYSTEMS - Jakarta Pusat

Sep 2023 - Present

UI/UX Designer - Full Time Hybrid

- **E-Systems:** Designed and improved the user interface and experience for several features in E-Systems, an internal web app managing all hiring solution needs from the internal side.
 - Improvements include enhanced Job Pages, CRM Pages, Invoice Review, Data Import and Export, and refined Toast Notifications for better user feedback.
 - New features consist of a Job Module with Job Recommendations, Job History, and Interview Schedule; A Candidate Module with Candidate History, Advanced Filters, Get Contact, Profile Summary Generation, and Consent Management; And Other Features like Contract and Agreement Approval, and a Google Docs-integrated Document Builder.
- **Resource Portal:** Developed the user interface for the Resource Portal mobile website, a web app that manages all hiring solution needs from the client side. Involved in research, interface design, and prototyping.
- **E-Jobs Chatbot:** Designed the Chatbot AI Assistant feature for E-Jobs, an AI-driven chatbot that assists candidates in resolving their queries.
- **Axdif Landing Pages:** Created landing pages for Axdif, a web page that provides product information and serves as a promotional tool.
- **Payroll Report Dashboard:** Created a user-friendly dashboard for tracking employee compensation and deductions, enhancing data visualization and streamlining reporting.

PT KREASI KODE DIGITAL (CODIFY) - Malang

Dec 2021 - Apr 2023

A Subsidiary of PT SOLUSI SINERGI DIGITAL TBK (SURGE) - Jakarta

UI/UX Designer - Full Time Remote

- **LiniStore:** Crafted a fully-responsive user interface for LiniStore, a social-commerce platform featuring group buying. Involved in research, design, and prototyping across 200+ pages.
- **LiniSeller:** Developed the user interface for LiniSeller, enabling sellers to create online stores on LiniStore. Total of 100+ pages designed.
- **Kelola Gudang:** Designed the user interface for the Kelola Gudang mobile app, an e-commerce fulfillment service that streamlines operations for online sellers. Over 120 pages created.

- **Kelola Gudang Staff:** Created the user interface for the Kelola Gudang Staff app, assisting staff in managing online seller operations. Designed 70+ pages.
- **Kelola Paket:** Developed the user interface for Kelola Paket, a package delivery app offering top expedition services. Involved in research, design, and prototyping for 50+ pages.
- **Kelola Iklan:** Designed the user interface for Kelola Iklan, a bidding platform connecting media owners with advertisers. Covered 70+ pages from research to prototyping.
- **Kelola Bayar:** Created a user interface for the Kelola Bayar payment gateway widget, facilitating balance top-ups and payments within the Kelola Super App.
- **Kelola Gudang Portal Report Module:** Enhanced the report module interface for the Kelola Gudang Portal, improving UI elements like headers, sidebars, tables, and color schemes.
- **Landing Pages:** Designed landing pages for both Kelola Super App and Kelola Gudang, serving as promotional tools with product information.
- **Design System:** Built and maintained the design systems for LiniStore and Kelola Super App, covering color schemes, typography, styles, and components.
- **Kelola Super App Rebranding:** Led the rebranding of the Kelola Super App logo and designed logos for various Kelola services. Created digital assets and brand guidelines for each rebranding effort.

Freelance Works

ICHEC (Indonesia Chemical Engineering Challenge) Website for Institut Teknologi Bandung

Aug 2021 - Oct 2023
